

## Pella Global Generations Fund

The Fund's objective is to beat the market across returns, volatility, and sustainability.

### Investment Approach

Invest in cash generative, growing companies trading on attractive valuations and adhering to sustainability criteria. The companies are combined using Pella's segmentation strategy. This strategy was established by Jordan in 2005, and funds managed by Jordan have consistently outperformed <sup>(1)</sup> their benchmarks <sup>(2)</sup> across different market conditions.

(1) Past performance is not indicative of future performance.

(2) Europe = Stoxx 600 (Reinvested net dividends); Australia = MSCI ACWI (A\$, net)

### Sustainability

Pella combines ESG requirements with a negative screen and carbon intensity targets. Pella participates in all its investments' shareholder votes and takes an active approach to improve its investments' ESG credentials.
