

OBJECTIVE

Pella aims to beat the Market on all the following measures: (i) Returns – deliver greater returns than the Market; (ii) Volatility – target lower volatility of returns than the Market; (iii) Sustainability – superior Environmental, Social & Governance to the Market.

INVESTMENT APPROACH

Pella seeks to construct a portfolio with a superior growth/valuation relationship and quality to the Market. To do this Pella targets companies that are growing, trading on attractive valuations, generate strong returns on capital, and have strong ESG credentials.

The stocks are combined using Pella’s Segmentation Strategy that divides each position and the portfolio into one of three segments: Core, Cyclical, and Innovation. Segment specific rules are combined with portfolio-level rules and limits to ensure the portfolio remains within its risk budget while simultaneously seeking solid returns.

SUSTAINABILITY APPROACH

Pella combines ESG requirements with a negative screen and carbon intensity targets. This is delivered using proprietary and external research and applying quantitative screens and qualitative research. Pella participates in all its investments shareholder votes and takes an active approach to improve its investments’ ESG credentials.

RISK MANAGEMENT

Risk management is applied at the stock and portfolio level. Pella targets liquid investments with minimal debt, strong ESG credentials, and are not facing structural headwinds. The portfolio is intentionally diversified with several exposure limits and a risk budget that is defined by Pella’s Segmentation Strategy.

Pella is a signatory of

*MSCI ESG rating of the Pella Global Generations Fund

FINANCIAL RETURNS NET OF ALL FEES ⁽¹⁾
