Pella's Investment Approach

Pella's investment approach combines rigorous stock selection with disciplined portfolio construction. We invest in global companies with strong free cash flow, above-GDP growth, durable competitive advantages, robust balance sheets, strong ESG credentials, effective management, and industry leadership. Valuations must be compelling, based on free cash flow yield relative to expected growth.

We invest across a broad range of industries, geographies, and company sizes to ensure a highly diversified portfolio. Our aim is to deliver long-term returns by building a portfolio that grows faster, is higher quality, and is more attractively valued than the market.
